

Vishwajeet Unmesh Patil

Tempe, AZ | +1 (480)-434-5322 | vpatil37@asu.edu | [linkedin.com/in/vishwajeet-u-patil](https://www.linkedin.com/in/vishwajeet-u-patil)

Construction Management graduate student with 2+ years of experience in project engineering, design and management. With hands-on field engineering experience across 5 municipal water treatment facilities in Phoenix, AZ. Worked on BIM & expanding experience in mission-critical Projects.

EDUCATION

M.S. Construction Management & Technology | DEWSC - Arizona State University | 4.00 GPA August 2025 - May 2027

Construction of Mission Critical Facilities, AI in Construction, BIM and offsite Manufacturing, Adv. Project Controls, Estimation

B.S. Architecture | MIT ADT School Of Architecture, India. | 3.70 GPA

June 2019 - May 2024

Principles of Architecture & Design, BIM Modeling, Building codes & Bylaws, Urban Design, Industrial Design, Computational design

WORK EXPERIENCE

FILANC Construction Co.

Project Engineer Intern | Phoenix

May 2026 - Present

Supported Project Engineers across 5 active water infrastructure projects with city of Phoenix, Avondale, Peoria, and Mesa and San Luis.

- Assisted in Estimation & Subcontractor selection for \$60+ Million Water treatment Facility at San Luis, AZ; Coordinating scope of work with MEP and CSA subcontractors, completed As-Built Markups and flagged 15+ RFIs, ensuring fast preconstruction process.
- Assisted in EOJ, O&M, ECAC, and COR documentation for owner turnover including As-Built red line drawings for City of Phoenix; Closed 100+ RFIs, 300+ Submittals, long lead item deliveries and closeout deliverables; Performed MOPO Walks & QA/QC Inspections.
- Assisted in 6-weeks look-ahead schedules & Independently Secured 90% approvals for 100+ preconstruction Submittals and RFIs from the City of Phoenix within a month driving procurement timelines and contributing to 80% on-time material delivery.
- Managed 100+ cut sheet approvals for Offsite Manufacturing of Union Hills WTP Training Facility within 30 days, Reviewed and signed the purchase orders for ~\$100k price items, validating \$22k price increase against the prior year's quote through direct vendor discussion.
- Built a concurrent solid process of assembling O&M documentation, cutting preparation effort by ~50% at closeout of Peoria project.

Arizona State University

Graduate Student Assistant - Pre-fab & Offsite Manufacturing in Construction | Prof. Ron Rendina.

August 2026 - Present

- Assisted a class of 20 students with guest lecture coordination & site tours of pre-fab manufacturing facilities at TSMC, Intel and DPR
- Supported presentation preparation, exam and assignment drafting, course documentation, syllabus, managed meeting minutes.

Research Aide - Arizona Water Innovation Initiative | Phoenix

October 2025 - June 2026

- Conducted site assessments across 20+ distinct freeway corridors, identifying irrigation system deficiencies and targeting 15 -20% water savings (~7M+ G annually) with corrective action plan, Managed field logistics, resolving on-site clashes, Practicing OSHA standards.

D+J Design Studio

Project Design Engineer - Resort Project | Nashik

January 2025 - August 2025

- Approved 50+ subcontractor quotes including, Civil, structural, MEP contract, executed purchase orders of ~\$150k for pool and Adventure Park equipment, conducted QA/QC field reviews against approved drawings & specs, flagged 2 structural non-conformance issues while casting 25-tons capacity RCC bridge, avoided costly structural rework of ~ \$20,000.
- Estimated and Scheduled Construction of Restaurant for capacity of 250 people & Swimming Pool of 8k gallons, Oversaw Installation of Filtration system by MEP subcontractor, coordinating with client approval for RFIs, shop drawings, & field sequencing.

Tor-Vergata University of Rome

Architectural Intern | Rome, Italy

June 2023 - July 2023

- Developed a 32k sf. UD proposal, produced 20+ sheet CD package. Projected to increase tourism revenue by 35% (~\$7M+ annually).
- Designed a student facility of 15k sf., ~ \$40 M; developed program requirements, architectural, structural, site drawings & schematics for stakeholder review & approval, projecting 10% improvement in student capacity.

ASU - ACADEMIC PROJECTS (2025-26)

- **Spine-Leaf AI Data Center:** Hybrid cooling, N+2N redundancy, 1.2 PUE, 10+ MW, Modular GPU-dense facility (80 kW/rack).
- **LabSPEC Semiconductor Pilot Facility** DB Proposal; 125k sf. ISO 3/4 cleanroom with active & passive vibration control foundation.

LEADERSHIP AND INVOLVEMENT

Captain - Associated Schools of Construction (ASC) Competition 2026-27, Reno, NV.

September 2025 - Present

- **3rd Place** for 2026 Alternates Competition completing 8 project control tasks in 9 hours with Diverse team collaboration.

Vice President - International Facility Management Association (IFMA) Greater Phoenix Student Chapter

April 2026 - Present

SKILLS & LICENSE

- Estimation | Scheduling | Documentation | Submittals | Quantity Takeoff | scheduling | Visit Reports | QA-QC | RFI Logs | Change Orders | Shop drawings | Meeting Minutes | Presentations | Data Entry & Analysis | Resource Allocation | Cost Control

- MS Suite (Word, PowerPoint, Excel) | Bluebeam | Procore | Primavera P6 | Navisworks | AutoCAD | Revit | BIM Modeling | InEight

Licenses - OSHA 30 | Procore (Project Management) Certificate | CMAA - CMIT | USGBC - LEED GA | Architect - CA/2024/178815
